

## **DIRECTOR, HEALTH EVOLUTION FORUM**

**Location Flexible – Hiring Immediately**

### **About Us**

Health Evolution brings together a passionate community of chief executives, presidents, founders, board chairs, policymakers, and other top industry leaders. We engage our community by convening in-person gatherings, publishing insights, and analyzing information that helps industry leaders accelerate progress, develop opportunities, and shape new strategies. We support executives seeking to create a high quality and efficient healthcare system based on prevention, affordability, access, equity, and outcomes for people and their communities.

The Health Evolution Forum is a new virtual and in-person collaboration among nearly 200 Fellows—CEOs and executives of payer, provider, and life sciences companies and other thought leaders—designed to drive near-term, industry-wide impact in health care. The Forum consists of Roundtables of 50-100 Fellows focused on broad areas of change, which then form Work Groups of 15-20 Fellows to work on narrow topics to generate specific and actionable reports and recommendations. Current Roundtables and their respective Work Groups include the following:

#### Roundtable on New Models of Care Delivery

- Leveraging Value-Based Purchasing to Increase Health Care Value and Resilience
- Reinventing Primary Care and Preventative Care Models
- Advancing Innovative Home-Based Chronic Care Models

#### Roundtable on Next Generation IT in Health Care

- Governance and Use of Patient Data in Health IT Products
- Digital Health and App Experience

#### Roundtable on Community Health and Advancing Health Equity

- Leveraging Data to Improve Health Equity
- Building Sustainable Models and Community Partnerships to Address Social Determinants of Health

### **About the Role**

Directors are responsible for owning the strategy for Roundtables and Work Groups and managing staff members in executing that strategy. Some specific duties include:

- Working with Leadership Fellows (partner CEOs and thought leaders) to drive the high-level strategy of a Roundtable

- Overseeing communications with Fellows and the logistics for Roundtable and Work Group meetings through collaboration with the Marketing & Operations team
- Facilitating Roundtable and Work Group discussions to build consensus and move groups of Fellows towards meaningful action
- Driving the content creation process for Work Group charters and final reports and recommendations
- Supporting the Executive Director in developing and implementing strategies for increasing revenue through underwriting agreements and launching new Roundtables
- Hiring, training, and managing personnel to handle the work of the Work Groups
- Collaborating with other Health Evolution team members to support a seamless and integrated experience for Fellows across all Health Evolution products including the Summit and Insights
- Leading staff members in achieving KPIs set in collaboration with the Executive Director

### What We're Looking For

We are looking for candidates with broad experience across multiple sectors of the health care industry. Some specific things we are looking for include:

- **Experience:** You have 5-15 years of health care industry experience in strategy, business development, consulting, or similar roles that involve significant interaction with senior executives and thought leaders and thoughtful analysis of high-level strategic issues. Experience at a best practices advisory firm and/or the specific Roundtable topics mentioned above is a major plus.
- **Passion for healthcare:** You are intellectually curious and have a very strong interest in understanding and developing tackling complex, cross-industry challenges in healthcare.
- **Entrepreneurial drive:** You have a demonstrated ability to own a problem and aggressively drive from problem statement to solution in a self-sufficient capacity; you operate with a sense of urgency and can excel in an execution-focused startup environment.
- **Influence:** You demonstrate a high level of collaboration and strong influencing skills and are able to move groups of people with various interests towards consensus and meaningful action.
- **Communication skills:** You're an excellent and structured verbal and written communicator with effective presentation and platform skills and with the ability to synthesize large amounts of information into concise summaries.
- **Leadership:** You've led successful initiatives and teams, engaging key stakeholders across business functions and all the way up the organizational ladder.

- **Exceptional problem-solving capability:** You have a proven track record of solving complex problems using data and business judgment, thinking creatively, and using data to tell a story to influence stakeholders.
- **Strong core values:** You demonstrate integrity, collaboration, a no-limits mindset, objectivity, and consistent results using global best practices.
- **Travel:** You are able to attend the annual Summit each year and otherwise travel as required up to 10% of the time.
